PROJECTS

Derogatory Records Management System

2024

Ramon Magsaysay Memorial Colleges / College of Criminal Justice Department

- Developed and maintained the Derogatory Records module, enabling the creation, viewing, updating, and management of student disciplinary records.
- Integrated the module with related system components to ensure accurate record synchronization and efficient retrieval of student violation histories.

ONLINE INTEGRATED CLINIC INFORMATION MANAGEMENT SYSTEM

2026

SalamatDoc Family Clinic

- Independently designed and developed a web-based clinic information management system for SalamatDoc Family Clinic as a capstone project.
- Engineered database schemas and implemented modules for patient management, appointment scheduling, billing, and administrative operations.
- Produced system documentation, including requirements analysis, system design, and technical specifications, to support development and maintenance.
